U.S. Chamber of Commerce Endorses Scalise

(Metairie) – Today the U.S. Chamber of Commerce’s Board of Directors endorsed Steve Scalise for Congress.

The U.S. Chamber of Commerce is the world’s largest business federation representing more than three million businesses and organizations. A letter to Steve Scalise from Thomas J. Donohue, President and CEO of the U.S. Chamber said, “It is the Chamber’s goal to help elect a pro-business Congress and work diligently in the interests of businesses large and small to advance legislation that encourages economic growth, job creation and less intrusive federal government. Your support of pro-business issues earned this endorsement.”

Steve Scalise said, “Southeast Louisiana still has a lot of rebuilding to do and it takes a strong business community to help get us where we want to be. In the Louisiana Legislature I have the most pro-business voting record of any legislator in the Greater New Orleans area. In Congress I plan to work with the local chamber groups to keep our businesses thriving. It’s an honor to receive the U.S. Chamber’s endorsement.”
